Unconstrained shape design of a transonic inviscid airfoil at a cte. AoA

초기값(DSN_01)

유동 조건

- Pressure = 101325 Pa
- Temperature = 273.15 K
- Mach number = 0.8

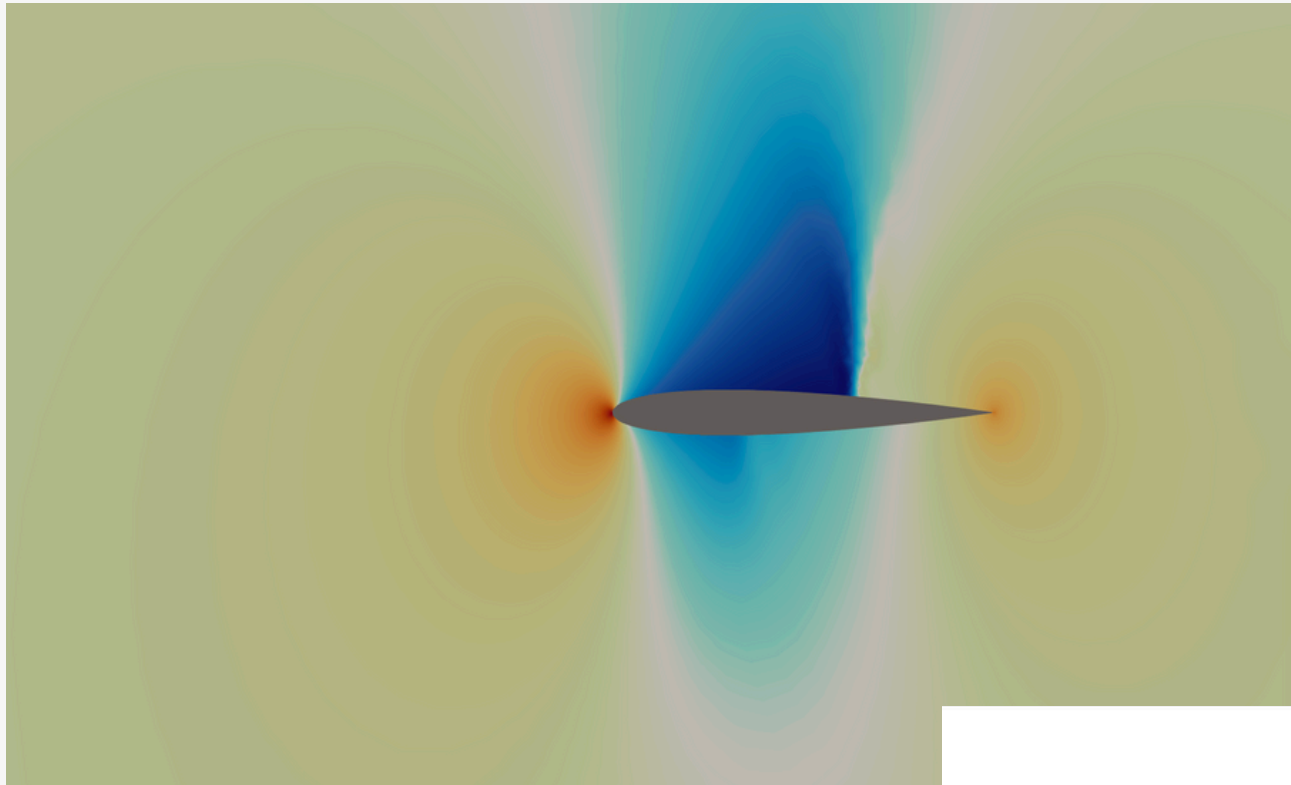

결과

$x \approx 0.4$ 까지 흡입압 감소
충격파처럼 보일 정도의 급격한 변화가 없음

Unconstrained shape design of a transonic inviscid airfoil at a cte. AoA

최종값(DSN_32)

유동 조건

- Pressure = 101325 Pa
- Temperature = 273.15 K
- Mach number = 0.8

결과

$x \approx 0.45$ 근처까지 흡입압 증가
충격파가 존재
